

Software Developer (Part-Time or Full-Time) Job:

ACT360-Media creates custom testing platforms on the web for educational institutions, and we are currently in search of an experienced Software Developer to create and maintain high performance and scalable software. The successful candidate will help to develop critical products for our clients from a rough specification if needed, and offer excellent technical support. Working from your home office, you will communicate through phone, email, Skype, etc. with clients and other members of our team.

Job Duties:

- Develop and implement new software programs using C# code and Microsoft SQL database queries, with Visual Studio as the development platform.
- Maintain and improve the performance of existing software
- Integrate diverse software systems using OATH2, SAML, etc.
- Clearly and regularly communicate with management, technical support colleagues, and clients
- Test and maintain software products to ensure strong functionality and optimization
- Recommend improvements to existing software programs as necessary
- Prepare manuals for clients and document code.
- Contribute to team effort by accomplishing related results as needed.

Skills and Qualifications:

- Experience in web and software development.
- Programming Skills in C#.
- Database Skills in Microsoft SQL Server.
- Demonstrated knowledge of web technologies, such as HTML, CSS and Javascript preferred.
- Software and/or Database Performance Tuning experience preferred.
- Analyzing Information and Problem Solving.
- Strong attention to detail.
- Excellent English communication skills, both written and verbal. Able to communicate both technical knowledge, and also write manuals for casual users.
- Ability to work independently and multi-task effectively.
- Self-motivated.
- Enjoys learning new skills and using new technologies.
- Demonstrated understanding of projects from the perspective of both client and business.
- Flexible and willing to accept a change in priorities as necessary.
