

Industrial Electrician

Oxford Frozen Foods is a vertically integrated wild blueberry processing and marketing operation and a major producer of frozen carrot products and battered vegetables. One of the keys to our success has been our ability to be a low-cost producer with a proven customer satisfaction focus. Located in Oxford, NS, we have an opportunity for an Industrial Electrician to play a key role in our maintenance and production departments. Oxford is committed to employee growth and development and is currently seeking applications from individuals interested in joining our dynamic work team.

Mission: Troubleshoot, maintain and repair all automated equipment, make recommendations on changes to equipment, method or product, and perform general electrical maintenance duties.

Responsibilities:

- Required to troubleshoot, maintain and repair all automated equipment
- Make recommendations on changes to equipment, method or product
- Ability to perform moderate mechanical repairs and assist other trades as needed
- Perform preventative maintenance on all automated and electrical systems
- Ability to work from blueprints, sketches and verbal instructions.
- Ability to perform new electrical installations up to 600V.
- Working knowledge of pneumatics and hydraulics
- Have thorough knowledge of instrumentation, PLC's, HMIs, and related programming
- Ensure all safety devices are properly adjusted, in place and all procedures are followed
- Follow all safety procedures and work in a safe manner
- Maintain good housekeeping standards throughout the plant and especially in area of work
- All other duties as assigned by management personnel
- Participate in Improvement Idea Program Meet or exceed requirements
- Ability to work independently without supervision
- Able to be on call
- Able to work various shifts

Job Requirements

Education: Minimum Grade 12
