

## **Looking for Part-time Support Worker**

I am a young man living in the Sackville area, working in the Amherst area, until the end of September. I have a physical disability and I am looking for a part-time person to assist with my swimming and exercise programs. It could also possibly consist of extra hours for community access. It is necessary for you to be a strong swimmer and accompany me in the pool. It would probably be 10-12 hours per week/\$15 per hour. The schedule would be flexible, usually in the early evening, depending on my work schedule. You must be pleasant, caring, dependable, and have an understanding of persons with disabilities. You must also be able to supply references. Driving an asset.
